The Year Ahead

isting of Selected Events 2006/07

The coming year will represent the final year of the TDC's three-year planning cycle. The Council's strategic objectives remain generally unchanged from those stated in 2006/07, although the organisation remains ready to react to new opportunities or challenges that may arise.

In the meantime, the TDC shall continue to focus on key strength areas, such as opening new markets abroad for Hong Kong companies, enhancing our role as Asia's leading sourcing centre, and bringing more international companies to the Hong Kong business platform.

The following includes selected action areas for the next year:

- Promoting Hong Kong as a technology marketplace
- Helping Hong Kong develop its creative industries
- Providing integrated marketing solutions for world SMEs
- Customising TDC's business-matching services
- Assisting Hong Kong SMEs to promote brands

The Council is now reviewing its operations. In the coming months, it will finalise its stated goals and objectives for the next planning cycle, which will run from 2008/09 to 2010/11.
