Jiangmen, China
A Brief Introduction

Jiangmen

---- A Very Rich Investment Region in China

☆ A Cost-competitive Manufacturing Base
☆ An Ideal Gateway to the Growing Chinese Market
☆ The Best of 120 Chinese Large-and-Medium Cities for Government Efficiency
☆ A Thriving Coastal and Garden City of the Pearl River Delta

1. Jiangmen · A Vibrant City

----- A Cost-competitive Manufacturing Base

Jiangmen is located in the south-central part of Guangdong Province, with an area of 9,541 square kilometers and a population of 4.15 million. Possessing a comprehensive industrial infrastructure, from conventional processing to Hi-tech industry, it is a key component of the Pearl River Delta---one of the world’s largest manufacturing centers. Jiangmen has formed some pillar industries, including machinery and equipment manufacturing, electronic and electrical appliance production, textiles and garment production, paper and paper products, food
processing, and construction materials production. Jiangmen has 12 nationally recognized industrial bases.

Jiangmen will fasten its steps in developing the heavy and chemical industries like middle and lower-stream petrochemical processing, equipment manufacturing, steel processing and etc.

In Jiangmen, the resources of land, water and electricity are ample. Moreover the costs of commercial real estate, labor, electricity and etc. are lower than those of any other regions of the Pearl River Delta. This leaves a vast space for the sustainable development of the manufacturing industry and also provides countless opportunities for investors. It is regarded by the World Bank as one of the most valuable regions for investment in China.

Jiangmen is:

● China’s Motorcycle Industrial Model Base
● China’s National Electronic Information Industrial Base
● China’s Hardware and Stainless Steel Products Manufacturing Base
● China’s Faucet Production Base
● China’s Microphone Industrial Base
● China’s Textile Industrial Base
● China’s Nano-Calcium Carbonate Production Base
● China’s Chemical Fiber Textile Base in the National Torch Project
● China’s New Material Industrial Base in the National Torch Project
2. Jiangmen - An Open and Accessible City

----An Ideal Gateway to the Growing Chinese Market

Adjacent to Hong Kong and Macao, Jiangmen is the transportation hub for Hong Kong, Macao and the Pearl River Delta to the west of Guangdong Province and the Southwest of China. It is regarded by Hong Kong Institute of Asia-pacific Studies in the University of Hong Kong as the first-choice city for Hong Kong to build cooperation relationships with the west part of the Pearl River Delta.

Hong Kong is a world famous international trade, financial and logistics center, and Jiangmen is noted for its strong manufacturing capabilities and ample resources. They are economically close and strongly complemental to each other. A proven successful business model, establishing an operation center in Hong Kong and a production base in Jiangmen, will take full advantage of the two sides. Over 20 multinational corporations listed in the World’s Top 500, such as Mitsubishi, Emerson Electric, ABB, and Hyundai, have already established their business facilities in Jiangmen.
With the advanced transportation by land and sea, a 2-hour living circle has been formed between Jiangmen, Guangzhou, Shenzhen, Zhuhai, Hong Kong and Macao, within which 5 international airports are easily accessible. The Hong Kong - Zhuhai - Macao Bridge is now under construction. When it is completed, this transportation convenience linking Jiangmen will be even further improved. Considering these factors, Jiangmen is one of the ideal gateway cities for commodities coming into the Chinese market or going out to the international market.

3. Jiangmen - An Efficient City

---- The Best of 120 Chinese Large–and–Medium–Sized Cities for Government Efficiency

In order to improve the service level and efficiency for investors, Jiangmen municipal government has adopted the ISO9000:2000 management system in all the departments, and set up a “One-stop” service organization—Jiangmen Administrative Affairs Service Center, in which all the investment procedures can be done in one building. Jiangmen’s high efficiency has been acknowledged by domestic and foreign authorized organizations for many times. The World Bank has consistently given good credits to the city:

In 2005, in the World Bank’s “Survey Report on Investment Environment of Chinese Cities”, Jiangmen was regarded as one of the China’s most valuable regions for investment.

In the World Bank’s appraisal on the Investment Environment for the top 120 Chinese cities in 2006, Jiangmen was elected as the “Silver Medal city” along with 12 other cities, including Beijing, Guangzhou, Shanghai, and Shenzhen. Jiangmen attained the best rating for government efficiency.

4. Jiangmen · A Harmonious City

----- A Thriving Coastal and Garden City of the Pearl River Delta

Jiangmen implements an active strategy of sustainable development and attaches great importance to environmental protection. It is one of the national model cities for environmental protection. Adjoining the South China Sea and Xijiang River; Jiangmen has a moderate climate with plentiful rainfall and sunshine, green all year round, making itself a green
city interspersed with woods and forest, and bringing about a harmony between man and nature. Thus Jiangmen was awarded as “China’s Living Environment Model City”.

Jiangmen is one of the China’s excellent tourist cities with abundant tourism resources, such as hot springs, beaches, islands, forest and etc. The unique watchtower buildings known as the “Kaiping Diaolou and Villages” are granted the title of World Cultural Heritage by United Nations Educational, Scientific and Cultural Organization (UNESCO).

Public security of Jiangmen is sound and well established. The city was regarded as one of the 50 most reliable regions for investment as well as one of the most secure in the Pearl River Delta.
Map of Jiangmen: location and Transportation Network of Jiangmen
