

Dr. Tim Moore
Chief Executive Officer
SGAI Tech Ltd.

Tim Moore is currently CEO of SGAI Tech Ltd, a joint venture company between Automatic Manufacturing Ltd of Hong Kong and the Generics Group of Cambridge UK. Prior to becoming CEO of SGAI, Tim was a managing consultant at Scientific Generics, where he completed product development and review assignments for: Amadeus Capital Partners, Amey Group, Thales, British Telecom and Hornby Group.

Before joining Scientific Generics, Tim co-founded Phenomenon Group plc on the back of a DTI (UK) SMART award and other venture capital funding. Tim managed the technical division, which launched the first B2B web auction in the audio-visual hire industry and also developed a unique agent-based on-line dynamic pricing system and a standard e-tailing system.

During his time at Phenomenon Group, Tim was also involved in the creation OnMedica, an e-health investment company, which secured over £20 million of funding. Tim's role was in business and technology strategy.

He graduated with a first class honours degree in Physics with Electronics at the University of Birmingham, and in 1998 he obtained a PhD from Cambridge University in Microelectronic Engineering.
